About Organiser

主辦機構簡介

The Institute of ESG & Benchmark (IESGB) is a non-profit organization founded in September 2020 by Mr. Paul Pong and Mr. Wilson Kwok. Our mission is to elevate stakeholders' awareness and knowledge of Environmental, Social, and Governance (ESG) practices across all industry sectors. We are dedicated to championing sustainable practices and recognizing the exceptional individuals and entities that strive to create a positive impact.

At IESGB, we offer comprehensive ESG training programs for ESG professionals, certify ESG courses, and organize a range of events and conferences. Additionally, we serve as an advisory body, ensuring the upholding of ESG standards within Hong Kong. We firmly believe that ESG is a seminal aspect of an organization's culture, sustainability, and innovation. By integrating ESG principles, companies can drive positive change and contribute to a more sustainable future. Our ultimate goal is to lead and strengthen ESG development not only in Hong Kong but also across the Asian region.

環境社會及企業管治基準學會(IESGB)是一間非牟利組織，由龐寶林先生和郭志成先生於2020年9月創立。我們的使命是提升各行業利益相關者對環境、社會和企業治理(ESG)實踐的認識和知識。我們致力於倡導可持續實踐，並表揚那些努力創造正面影響的傑出人員和公司。

在IESGB，我們為ESG專業人士提供全面的環境、社會及企業治理培訓計劃，認證ESG課程，並組織一系列活動和會議。此外，我們亦擔任顧問機構，確保各企業在香港遵守ESG標準。我們堅信ESG可以為不同的組織帶來文化、可持續性和創新方面的一個開創性。通過整合ESG原則，企業可以推動積極變革，為可持續未來作出貢獻。我們的終極目標是在香港以及整個亞洲地區引領和加強ESG的發展。

Message from Founders 創辦人致辭

Environmental, Social, and Governance (ESG) considerations are crucial for assessing non-financial impacts, and Hong Kong's role as a financial hub is vital for driving ESG development. However, listed companies' ESG disclosures often lack quality and consistency, hindering accurate risk assessment. The release of ISSB's Sustainable Disclosures Standards sets a new era of sustainable development disclosure. Looking ahead, policy changes promoting sustainability are essential post-pandemic.

ESG standards provide a common language for climate-related risk disclosure, encouraging companies to integrate climate considerations into decision-making.

HKEX's proposals require listed firms to disclose climate-related targets, potential impacts on business models, and strategies. The IESGB annual conference facilitates ESG knowledge sharing and best practices among businesses, fostering a sustainable future.

Founded in February 2020, the IESGB has been committed to promoting sustainable practices and accelerating ESG development across all industry sectors. Our mission is to elevate stakeholders' awareness and knowledge of ESG practices. Through our efforts, which include providing professional designation for individuals, developing a comprehensive ESG ecosystem for all industries, and serving as an advisor on ESG matters, we aim to create a more sustainable future for Hong Kong and Asia.

The ESG Achievement Awards celebrate companies making positive impacts and promoting sustainability, inspiring others. This year's theme, "ESG Champions: Pioneering Sustainable Development," highlights first-movers driving positive change. The awards encourage innovation, ESG education, and sustainability standards.

Congratulations to this year's ESG Achievement Awards winners for their remarkable contributions to Hong Kong's ESG development. Let's inspire others to follow their lead and work towards a sustainable future.

Thank you for joining us today. Your continued support and participation in future ESG initiatives are immensely appreciated. Together, we can create positive results for our society and environment.

創辦人致辭

Massive congratulations to all the winners of the ESG Achievement Awards 2022/2023! On behalf of the Institute of ESG & Benchmark (IESGB), I express my gratitude to all participants for their outstanding achievements and innovative Environmental, Social, and Governance (ESG) solutions. And special thanks to all the jurors and supporting organisations for their valuable contributions.

With Mainland China's commitment to carbon neutrality by 2060, sustainable development has become a crucial goal for enterprises in the Guangdong-Hong Kong-Macao Greater Bay Area (GBA). IESGB continues to drive efforts through these awards, encouraging businesses and communities to adopt innovative thinking in achieving ESG operating model objectives.

ESG considerations are not limited to environmental and social metrics; they also impact growth KPIs such as revenue, employee retention, and investment viability. Banks now consider ESG when reviewing loan applications and selecting buyers and suppliers for businesses of all sizes.

As the green ecosystem in the GBA matures, SMEs and enterprises can leverage ESG to upgrade their businesses, introduce innovative technologies, and navigate the evolving landscape. This will attract new generation of talent and unlock more opportunities for companies to go further.

I believe the ESG operating model will soon be implemented across businesses of all sizes, enabling them to seize greater opportunities. ESG-related departments should not work independently; instead, all departments and employees must coordinate ESG risk management to enhance corporate flexibility in green trade, supply chains, and other fields for sustainable development.

Once again, congratulations to all the awardees of the ESG Achievement Awards 2022/2023. Your hard work is truly deserving, and I look forward to witnessing your continued success in the future.

首席評審致辭

To the winners of the ESG Achievement Awards 2022/2023 and the Institute of ESG & Benchmark (IESGB) team,

I would like to extend my heartfelt congratulations to all the winners of this year's ESG Achievement Awards. Your exceptional accomplishments in demonstrating ESG leadership through holistic reporting, effective operations, and innovative approaches to sustainable development are truly inspiring. Each of you is a pioneer in the promotion of a green economy, and your achievements sets a high standard for all businesses and communities to follow.

I would also like to congratulate IESGB for organising this year's Awards with such utmost professionalism and excellence. Your dedication to fostering a culture of innovative and thoughtful endeavours for businesses and communities to flourish are highly appreciated. The Awards have not only recognized outstanding achievements but have also created a platform for collaboration and knowledge sharing among ESG practitioners. It sets the stage for a forward-thinking and harmonious ESG community, and I'm optimistic that these practices will continue to prosper further.

As we navigate the path to economy recovery, your stories and missions in pioneering sustainable development are rightly told through this year's Awards theme "ESG Champions," and I am confident that your accomplishments will inspire others alike.

Once again, congratulations to all the winners, and a heartfelt thank you to IESGB for hosting such another successful event. Together, let us continue to drive positive change and create a better world through ESG leadership.

Message from the Jury Panel

評審團致辭

As environmental, social and governance issues take on greater importance, the ESG Achievement Awards play a critical role in raising awareness around sustainable development. A huge round of applause to the organiser, The Institute of ESG & Benchmark, for their efforts to celebrate excellence in the field.

By recognising the accomplishments of all participants and highlighting the achievements of our award winners, we are not only showcasing best practice but also raising the bar for ESG across the industry.

Congratulations to all of this year's winners for their contributions to the sustainable development of Hong Kong!

It is a great honour to be appointed as a juror for the ESG Achievement Awards 2022/2023.

The growing momentum of ESG globally has led to remarkable progress in promoting Hong Kong's sustainable agenda given its international financial status.

With my investment services experiences over years, I am glad to see that the ESG is inclusive in fund managers', endowment, sovereign and private portfolios. In particular, the number of ESG registered mutual funds with HKSCF have multiples in the last few years.

I appreciate all awardees' commitment, progressives, and persistence in ESG area and hope many more to come.

I am absolutely honoured to be a part of the ESG Achievement Awards 2023/2023 Jury Panel and witness the incredible work being done to promote sustainable development in Hong Kong. Throughout my journey with the panel, I have been continuously impressed by the dedication and passion of the awardees. Their commitment to environmental, social, and governance initiatives is inspiring and has undoubtedly made a substantial impact. My sincere congratulations to all the winners and thank you Institute of ESG & Benchmark for organising such a meaningful program! My hope is that these efforts continue to inspire others and drive positive change towards a more sustainable future for Hong Kong and the world.

We are thrilled to see that Environmental, Social, and Governance (ESG) principles have become a new orientation for business strategy across various industries.

The ESG Achievement Awards has illustrated the intrinsic values of sustainability and addressed the considerable short-run and long-run benefits for business growth as well as human well-being.

Through the Award, participating organizations (enterprises, NGOs and NPOs) have also embodied the sense of social responsibility on a corporate level. Besides, the participating organizations have also set the exemplary role models for practices in ESG and maintained the momentum of ESG development.

We would like to extend our heartfelt congratulations to those awardees, your contributions are greatly appreciated and deserved the recognition.

評審團致辭

I am excited to be part of the judging panel for the ESG Achievement Awards 2022/2023. The innovative entrants in Hong Kong championing ESG practices are much needed and serve as beacons for others to learn from and follow. Unfortunately, as per SCMP's report on 4 June 2023, 98% of privately held businesses in Hong Kong do not publish annual ESG reports. With 30 years of experience practicing CSR and now ESG since listing, I strongly believe in how ESG can improve financial performance, make operations sustainable, gain competitive edge, and ultimately benefit our community and the world. Congratulations to all the 2022/2023 ESG Achievement Awardees!

ESG integration helps enterprises seize new opportunities, enhance their competitive edge, foster a culture of excellence, and drive innovation. This year's Awards theme, "ESG Champions: Pioneering Sustainable Development", honours the pioneers who have made significant strides towards sustainable development, inspiring others to follow in their footsteps. The Awards serve as a call to action for all enterprises to take responsibility for their environmental and societal impact. By embracing ESG practices, businesses can create a more sustainable future and contribute to the greater good. Let's encourage enterprises to take steps for more significant and higher achievements for a better and greener tomorrow!

Message from the Jury Panel 評審團致辭

I am very happy to be a juror for the second consecutive time. ESG is an important issue to our society. Being a subject matter expert on the IPO market, I do believe that identifying listed companies achieving high ESG standards can have a positive effect on market awareness of ESG at corporate level. I'm impressed by the nominees' commitment to sustainability in this ESG awards event. Their innovative solutions embody key ESG principles that promote positive impact, reducing carbon footprints, promoting social responsibility, and ensuring strong governance. These ESG initiatives have brought tangible benefits not only to their own operations but also to the environment and society. Their accomplishments offer inspiration and learnings for more businesses to integrate sustainability into their practices. By highlighting these model approaches, we build momentum toward a more sustainable future.

I am honored to be a member of the jury panel for the ESG Achievement Awards 2022/2023. The participants in the competition include a wide variety of listed companies which have demonstrated a strong commitment in adhering to and reporting on ESG principles and strategies. The implementation of green finance initiatives in business operations has further advanced the overall sustainable performance. The financial services industry must continue to work with various stakeholders to harness the opportunities of the green and sustainable financing development as we strengthen Hong Kong's role as an international financial center.

Message from the Jury Panel 評審團致辭

It is exciting to see many more companies, listed and unlisted, participating in the ESG Achievement Awards 2022/23.

Sustainability is becoming very important. Acquiring more resources and knowledge on this subject is a must for all companies. The International Sustainability Standards Board (ISSB) issued in June two sustainability disclosure standards: IFRS S1 – General Requirements for Disclosure of Sustainability-related Financial Information and IFRS S2 – Climate -related Disclosure. It is expected that guidelines and guidance will be issued by Hong Kong Institute of Certified Public Accountants and Hong Kong Stock Exchange, and other institutions, on sustainability disclosures. For more information, you may visit the ISSB Knowledge Hub at www.sasb.org/knowledge-hub

ESG is important for companies, investors, and society as a whole. It helps companies in managing risks, attracting investors, and contributing to creating a more sustainable and responsible business environment. Sustainable development in Hong Kong is crucial for the well-being of the city, its inhabitants, and the planet. ESG awards is here to help companies improve their reputation, attract customers and investors, and motivate ongoing improvements in sustainability practices. Engaging ESG can provide significant benefits to companies of all sizes and industries. Keep it up!

I am very honoured to be invited back to the judging panel of the ESG Achievement Awards 2022/2023. This is a unique opportunity to witness up close the ESG performance of Hong Kong listed companies. I am pleased to say the candidates all demonstrate very high standard in their ESG commitment and endeavours. and it is not easy to decide on the winners. The final winners come from different industries, and all are conscientious of their particular responsibilities to the environment and stakeholders. They are all worthy winners, and I would like to congratulate them for their great efforts.

The clock is ticking on ESG! Hong Kong must uphold its reputation as a global financial center and innovation hub by embracing ESG beyond regulatory compliance. Therefore, long-term planning, education, training, and collaboration are crucial.

The award celebrates companies that integrate ESG into their culture and strategies, inspiring others to follow suit. Congratulations to the Awardees! I hope all organisations, regardless of size and nature, will learn from one another and embark on an ESG journey across disciplines. Together, we can ensure the sustainability of our planet, people, and establishments.

Award Objective 大獎宗旨

The ESG Achievement Awards 2022/2023 is a distinguished event recognizing visionary leaders driving ESG integration in Hong Kong. As economies strive to recover, the importance of ESG practices have become evidently essential to business norms. At the awards, we celebrate trailblazers embracing ESG principles, showcasing their remarkable successes and lessons for meaningful change.

Under the theme “ESG Champions: Pioneering Sustainable Development,” this vibrant platform elevates mission-driven leaders. The winners and the wider attending community demonstrates commitment to fostering sustainable growth, contributing to Hong Kong’s recovery. With support from Hang Seng Indexes Company Limited (HSIL) as our esteemed ESG Data Partner, and our Guest of Honor, Mr Joseph Chan, Under Secretary for Financial Services and the Treasury, we aspire to encourage pioneering initiatives empowering businesses and communities to flourish.

Over the long term, the awards will continue to pursue collaboration so that together we may establish a future where sustainability thrives, and transformative change becomes the norm.

環境、社會、企業管治成就大獎2022/2023是一個傑出的活動，旨在表彰有遠見的領導者，推動香港的ESG整合。隨著經濟努力復甦，實踐ESG的重要性顯然已成為商業規範的關鍵。在頒獎典禮上，我們表彰採用ESG原則的開拓者，向大眾展示他們的非凡成就和改革經驗。

以「ESG倡導者：引領可持續發展」為主題的活動中，這個充滿活力的平台提升了以使命為導向的領導者。得獎者及廣大參與社區展現了對促進可持續增長的承諾，為香港的復甦做出貢獻。我們得到了恒生指數有限公司作為尊貴的ESG數據合作夥伴以及榮譽嘉賓香港特別行政區財經事務及庫務局副局長陳浩濂先生支持，我們希望鼓勵開創性的舉措，使企業和社區蓬勃發展。

從長遠來看，這些獎項將繼續與各界合作，以便我們可以共同建立一個可持續發展蓬勃發展的未來，並讓ESG革命成為常態。

Committed to creating long-term value for assets under its management while achieving sustainable development, the Group strives to develop as a top-notch property development and assets management company.

Wang On Properties strives to incorporate sustainable development and corporate social responsibility into our business development and also seek to enhance the sustainability of projects through partnership with various parties, while promoting green lifestyle.

During the year, Wang On Properties has signed with two major international and local banks a 39-month sustainability-linked loan ("SLL") for the redevelopment of a property project located Ap Lei Chau. It is the third SLL WOP has secured, linking multiple sustainability performance targets (SPT), like the other two SLL obtained during 2022. Having been granted another performance-based SLL, the Group is delighted that its sustainability and eco-friendliness have been fully acknowledged by the financial sector. WOP is dedicated to integrating green elements into our project planning and design and to offering a green lifestyle for our customers. We will continue to endeavor to accomplish our sustainable development goals and achieve a 100% green building certified development portfolio by 2027.

During our Larchwood property project, the urban redevelopment project in Mongkok, we collaborate with HK Timberbank which we transformed recycled timber into elaborated art piece. The life of the timber is thus perpetuated. The transformation epitomizes our philosophy in urban redevelopment, which involves rejuvenation and continuation of the spirit of a city. This collaboration is an integration of aesthetic design and recycling. Recycled timber is transformed into wooden art piece, to adorn Larchwood with a touch of Nature. This collaboration has been a remarkable experience for us, and help to lay a solid foundation for Wang On Properties' ongoing business philosophy. "A Passion for Tomorrow" is the cornerstone of our business. We are determined to build homes for the coming generation and to fulfil our commitment to creating common value for the community.

Ocean Park is Hong Kong's unique home-grown theme park with a heritage of delivering family fun and fond memories. Since its opening in January 1977 as a non-profit organization, Ocean Park has developed itself into a world-class attraction connecting people with nature. It has gained consistent recognition for its extraordinary experiences, conservation and education work, and relationship with the community. The Park's support to renewable energy and sustainable seafood are great examples of corporate taking concrete steps in protecting the environment. In 2017, Ocean Park was the first applicant to the Feed-in Tariff scheme in the Hong Kong Island district when the scheme was launched by the HKSAR Government. To date, the Park has installed solar panel systems on a total of 11 rooftops, with an annual output of 1.1 million Kwh of renewable energy. In addition, Ocean Park is a pioneer in promoting sustainable seafood, banning shark fin as early as 1995 and rolling out the first-ever sustainable fish balls in 2015. Today, all seafood served in the Park is sustainable seafood.

Sino Land strives to integrate sustainability into every aspect of its operations through three interconnected areas under our vision of “Creating Better Lifescapes”, namely Green Living, Innovative Design and Community Spirit. The Group also seeks to create long-term value for stakeholders and the communities in which we operate.

Sino Land has become the first developer in Hong Kong to be recognised among the Global 100 Most Sustainable Corporations by Corporate Knights, marking a milestone for the sustainability development of the local property industry. Sino Land has also been recognised as a Regional Top-rated ESG Performer by Sustainalytics, and its MSCI ESG Rating upgraded to “AA”. Furthermore, Sino Land has been selected as a constituent of the Dow Jones Sustainability Asia/Pacific Index.

Sino Land is one of the pioneer developers in Hong Kong to publish a standalone Climate Action Report, formulated in alignment with Task Force on Climate-related Financial Disclosures (“TCFD”) recommendations with the aim of disclosing efforts to identify, assess and manage climate-related risks and opportunities that are material to the business.

About Henderson Land Development Company Limited

Set to become a prominent architectural icon of Central, Hong Kong's CBD, The Henderson, designed by the world-renowned architectural firm Zaha Hadid Architects ("ZHA"). This new 465,000-square-foot super Grade-A office tower will be a showcase for health, resilience, smart technology and sustainability.

With its curvy built form, which is a signature design of ZHA, The Henderson echoes the organic beauty of the natural world, reinterpreting the structural forms and layering of a Bauhinia bud about to blossom.

The Henderson, which is expected to be completed in 2023, has already received numerous awards and accolades, including the Grand Award (New Buildings Category: Projects Under Construction and/or Design - Commercial) at Green Building Award 2021 and Platinum Pre-certifications in both WELL Building Standard (WELL) and Leadership in Energy and Environmental Design (LEED). The project has also been awarded Platinum certifications for both WiredScore and SmartScore, in recognition of its outstanding digital connectivity and advanced smart technology.

The Henderson座落中環核心商業區，集團銳意將項目打造為國際矚目的「地標中的地標」，並特別委聘了舉世知名的扎哈•哈迪德建築事務所(Zaha Hadid Architects)設計，落成後將成為一座總樓面面積465,000平方呎的超甲級商廈，同時兼顧用戶健康、靈活多變、智能科技及可持續發展元素，預計於2023年正式落成。

大樓的外型設計承襲「曲線女王」扎哈•哈迪德的優雅曲線風格，以洋紫荊含苞待放的形態作為設計靈感，巧妙地演繹出花蕾的層層結構，回應大自然的有機與不規則之美，展現出最前瞻的可持續理念和創新思維。

項目至今已贏得眾多獎項與榮譽，包括環保建築大獎2021新建建築類別(興建及/或設計中項目-商業)大獎、WELL健康建築標準認證及領先能源與環境設計(LEED)的鉑金級前期認證，更榮獲WiredScore及SmartScore「雙鉑金」智能設計認證，充分展現項目在數碼通訊和物業智能技術上的卓越成就。

Upon its scheduled completion in 2023, The Henderson is poised to become a sustainable workplace of the future with an all-embracing ESG ecosystem. (For reference only and subject to further design development)

About Sino Land Company Limited

Sino Land is the world's first developer to deploy EcoBricks

As part of our continued effort to drive sustainable and green development, the Group, along with local start-up EcoBricks, have jointly inaugurated a breakthrough solution to plastic waste in Hong Kong, which can upcycle all types of plastics into sustainable construction materials. Plastic is typically classified into seven types. EcoBricks' innovative solution reimagines the plastic journey with its proprietary process formula that can upcycle all seven types of plastic waste, including mixed and composite plastics that are currently impossible to recycle. The upcycled EcoBricks are "green concrete" used in various industry-standard construction materials, developing a circular economy solution to Hong Kong's plastic waste issue.

EcoBricks were first introduced at Tuen Mun's Gold Coast Piazza, followed by other properties in the Group. Eight properties in our portfolio have deployed EcoBricks, equivalent to over 23 tonnes of plastic waste upcycled. We are also exploring possibilities to contribute to the local EcoBricks production system through community recycling centres. We look forward to continuing to use this technology to benefit the environment, society and our business.

信和置業為全球首家地產發展商應用EcoBricks

信和置業一直推動可持續和綠色建築，與本地初創企業 EcoBricks 攜手推出能夠將各類塑膠升級為可持續建築材料的突破性解決方案以處理本港塑膠廢物問題。現時塑膠普遍分為七類，EcoBricks 的獨特專利配方及加工程序能有效處理全部塑膠廢料，包括現時無法回收再造的混合塑膠和合成塑膠。這項創新的解決方案能將它們升級再造成各種符合業界標準的建築材料，創造出以循環經濟來應對香港廢棄塑膠的問題。

我們率先於屯門黃金海岸商場使用 EcoBricks，其他物業亦相繼使用這創新解決方案。我們在旗下8個管理物業中使用 EcoBricks，相當於回收再造超過23公噸塑膠廢料。我們亦正研究透過社區回收中心支援 EcoBricks 製造系統的可能性，並展望繼續利用這技術使環境、社會和業務受惠。

About Yau Lee Holdings Limited

Yau Lee Holdings Limited considers ESG in every aspect and seek to build a sustainable and liveable community through Modular Integrated Construction (MiC). We invented our first MiC System in 2018, which was also the first concrete MiC System approved by the Buildings Department (BD) and adopted in the Married Quarters for the Fire Services Department at Pak Shing Kok, Hong Kong.

Over the past 5 years, we completed more than 5,800 MiC box-modules for different types of buildings, for instance, demountable MiC transitional housing, the tallest MiC building with balcony, the first MiC public housing, the first MiC school and the first MiC government complex and vehicle depot. In general, at least 30% of construction time, 50% of manpower and construction waste, and 25% of air pollution can be reduced.

To improve the full lifecycle management of MiC project and ensure its good governance, BEANiE, Hong Kong's first blockchain multifunctional platform, was deployed in 2019 to provide the most efficient way for seamless communication. BEANiE consists of six modules, from QA/QC, BIM, Logistic, DWSS, Safety to City Information Modeling.

We are committed to strengthening the application of MiC and look forward to a wide adoption in the near future.

有關有利集團有限公司

有利集團於日常營運中納入ESG因素，並採用組裝合成建築法(MiC)建立可持續發展的宜居社區。我們於2018年發明了首個獲得屋宇署批准的混凝土MiC系統，並在香港百勝角消防處已婚人員宿舍採用。

五年來合共安裝超過5,800個MiC盒仔，例如可拆再建MiC過渡性房屋、全港最高並設露台的MiC住宅、首座MiC公屋、首間MiC小學及首個MiC政府綜合大樓及車廠等。一般來說，採用MiC可至少減少30%施工時間、50%人手及建築廢料和25%空氣污染。

為改善MiC全生命週期管理，於2019年完成開發全港首個區塊鏈多功能平台BEANiE，為團隊提供無縫溝通方式。BEANiE由六個模塊組成，包括品質控制、BIM、物流、數碼工程監督系統、安全及城市信息模型。

有利集團致力加強MiC的應用，並期待能在更多類型的項目中廣泛採用。

About Analogue Holdings Limited

In face of the increasing demand for high quality water and wastewater treatment, Analogue Holdings Limited has developed its first innovative, mobile, and all-in-one product, AMSFS III x AlgoWater, for delivery of quality water and wastewater treatment services. Our product incorporates diverse water and wastewater treatment processes including coagulation, magnetic media mixing, flocculation and sedimentation, all installed and completed within a container. The physical structure of the container allows it to be easily transportable, relocated, and reinstalled, thus reducing construction waste. The system allows temporary, semi-temporary or permanent applications, offering high flexibility to customers. Besides, by equipping with high-rate magnetic media system and Physics-Guided Machine Learning approach, it enables significant optimisation results, such as reducing chemical dosing by 47% and ensuring safer water quality through its prediction capability. AMSFS III x AlgoWater converts wastewater to clean water in an innovative and effective way, contributing to the creation of a green aqueous eco-environment.
